TO WHOM IT MAY CONCERN

This letter accompanies the cremated remains (ashes) of the person whose details are provided in the attached documents:

- Certified copy of the death certificate
- Certified copy of the cremation certificate
- Statutory declaration that the container/urn holds only the cremated remains of the deceased

It is understood that the ashes of the deceased are to be repatriated for disposal.

I am satisfied that because the body has been cremated, there is no public health risk from any communicable disease.

Teresa M Ballestas Barros
