Department of **Health**

Destination: Sustainability

Mrs Tanya Basile

Chair

Clinical Senate of WA

Senate update

- Welcome and business update
- Today's debate: Destination: Sustainability
- Survey results on clinician engagement

Aim: To develop metrics for system change

The question for today is:

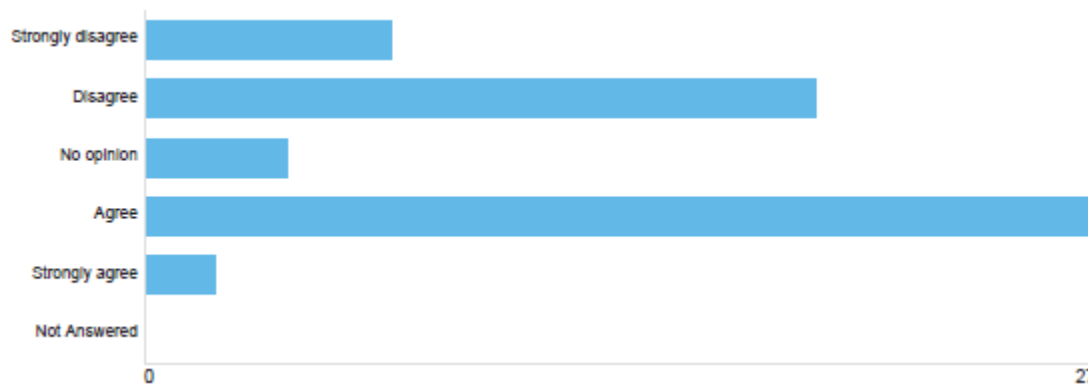

We will know we have a sustainable health system when.....

Clinicians are directly involved in the strategic planning process in their particular service area.

49% strongly agree/agree

44% strongly disagree/disagree

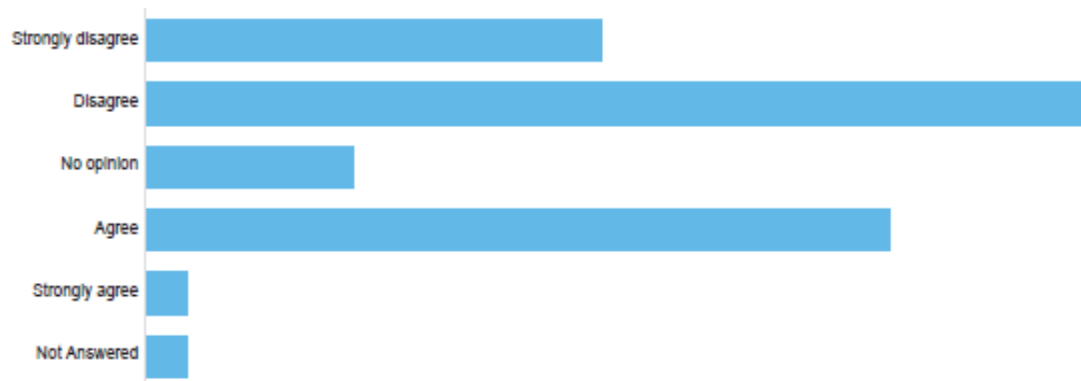

Clinicians feel a sense of ownership in helping direct the current and future clinical issues to establish the clinical priorities from a collective focus.

32% strongly agree/agree

58% strongly disagree/agree

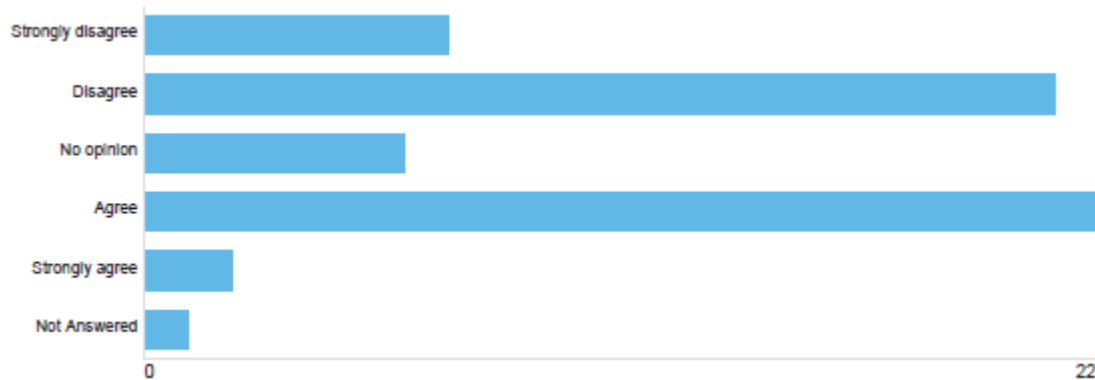

Clinicians are accountable via performance monitoring and benchmarking, thus driving long-term performance improvement.

41% strongly agree/agree

47% strongly disagree/disagree

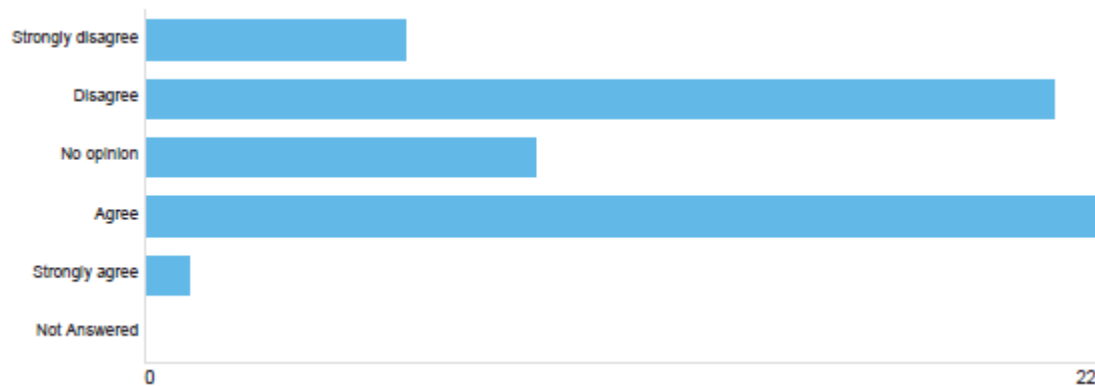

Clinicians are encouraged to support health service initiatives in a collaborative manner around all aspects of health service performance.

39% strongly agree/agree

46% strongly disagree/disagree

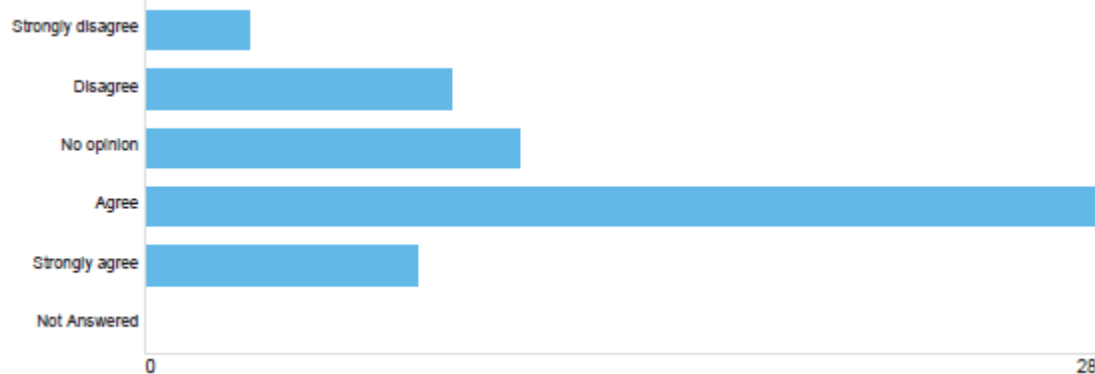

Clinicians are vested in WA Health's success.

61% strongly agree/agree

20% strongly disagree/disagree

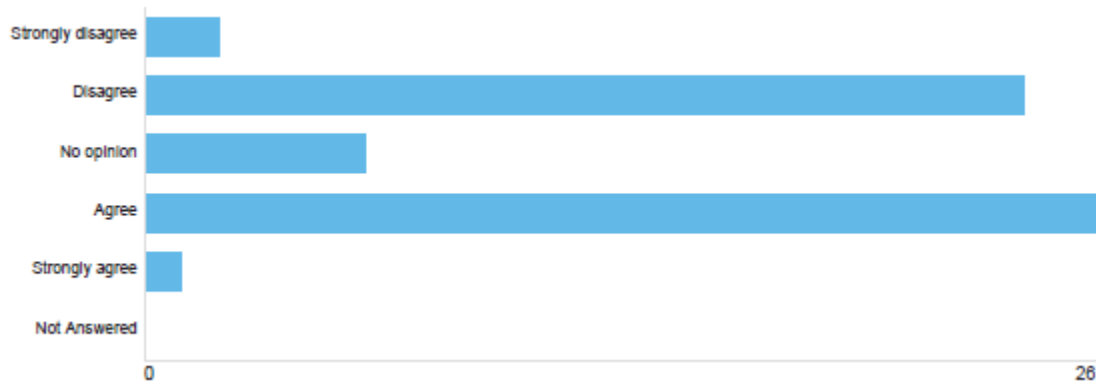

Clinicians can advocate for patients and give constructive criticism without fear.

46% strongly agree/agree

44% strongly disagree/disagree

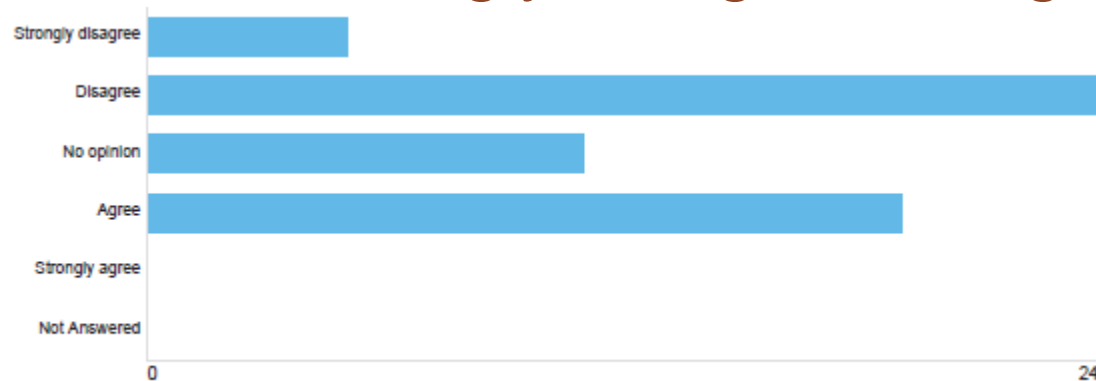

The current clinical governance processes are meeting the needs for the delivery of health services in Western Australia.

32% strongly agree/agree

49% strongly disagree/disagree
